ALFING KESSLER SONDERMASCHINEN

## ORIGINAL ALFING SPARE PARTS

TECHNICAL SERVICE OFFERED BY YOUR  
EXPERIENCED PARTNER

ORIGINAL ALFING

SPARE PARTS

As quality- and cost-conscious automobile supplier you need machines available at all times. Unplanned machine standstill and failure times must be reduced to a minimum. In addition, you expect a constantly high component quality.

With the right spare and wear parts from ALFING you are best equipped for the highest productivity and availability requirements of your machines. Unexpected machine failure and standstill times are reduced to a minimum. The preventive exchange of single parts can additionally get the component quality back to the highest level.

We advise you in the correct stockholding strategy, i.e. concretely in the selection of critical spare parts in the correct volume. Profit from our competent contacts and different spare parts packages from „basic“ to „premium“. We are pleased to consider your budget ideas and availability targets. We supply the requested original spare parts as quickly as possible to your site. Of course, on request we will also install the spare parts on site.

Please contact us with reference to the recommended spare parts packages for your ALFING machine.

## BENEFITS FOR YOU
